## Login

The Data Management Solutions application can be accessed from <https://dms-datavalidate.com/> using supplied username or registered email address. A temporary password is provided in the registration email and requires an update during the registration process.

The screenshot shows the Data Management Solutions website header with the logo and navigation menu. The 'Login' button is highlighted with a red box. A purple arrow points from the 'Login' button to a login form titled 'Sign in to your account'. The form includes fields for 'Username or email address \*' and 'Password \*', a 'Sign in' button, and a 'Forgot your password?' link.

### Registration Email Example:

The screenshot shows an email from notifications@dms-datavalidate.com via amazonses.com. The email body contains the following text:

Thank you for subscribing to the Data Management Solutions- Data Validation Platform (DVP). Please use the following link to begin the user registration process; <https://datamanagement.dms-datavalidate.com> Your username is [redacted] and temporary password is [redacted] Please do not hesitate to contact our team with any questions, support@dms-datavalidate.com.

At the bottom of the email, there are buttons for 'Reply' and 'Forward'.

## Users

---

The Data Management Solutions application supports six (6) user types, each with varying levels of access and functionality:

1. **Organization Admin – Full Access**  
Provides complete access to all features within the application, including the ability to add and deactivate users.
2. **Organization Comparer – Limited Access**  
Allows full compare and merge functionality, but only for designated (whitelisted) companies. This role does not have the ability to add new companies.
3. **Organization Task Manager – Limited Access**  
Grants the same permissions as the Organization-Level Comparer, excluding access to compare and merge functions.

*Note: This user type does not count against your licensed user seats. You may create an unlimited number of Task Managers.*

4. **Organization Verifier – Partial Access**  
Permits verification of discrepancies and missing data for existing compares. Compare and merge functionality is not available for this role.

*Note: This user type does not count against your licensed user seats. You may create an unlimited number of Organization Verifiers.*

5. **Company-Level Admin – Limited Access (Platinum Elite Plan only)**  
Offers full compare and merge capabilities, but only for the specific company under which the user is created. This role is exclusive to the Platinum Elite subscription.
6. **Company-Level Verifier – Partial Access**  
Allows verification of discrepancies and missing data for existing compares within a single company. This role does not include compare and merge functionality.

*Note: This user type does not count against your licensed user seats. You may create an unlimited number of Company Verifiers.*

Only Organization level users are discussed in this set of instructions. Please reference the Company Level User process document for information pertaining to that level.

## Create the Compare Only

The compare process involves multiple steps, beginning with naming the compare and continuing through to its completion. Each step must be completed in sequence to move forward. Steps beyond **Step 5 – Compare** are optional and can be skipped if not applicable. With the exception of the initial compare creation, previously completed steps can be revisited and reset if needed.

## Select Data Points & Create Import Template

Matching data points will be auto populated, and you may add or remove data points as needed. At least **one (1) unique identifier** must be selected. To remove all data points, click **CLEAR ALL**.

If a masked SSN is used as one of multiple unique identifiers, only the **last four digits** will be considered.

**Note:** When using a masked SSN, it is strongly recommended to include additional unique identifiers (UIs) such as first name, last name, date of birth, or relationship (if applicable) to ensure the most accurate results.

Optionally, check **SHARE WITH ORGANIZATION** to add the template to your Organization-Level Template Library. Templates shared by an Organization Admin or Organization Compare User can be accessed across all companies within the same organization.

**Company Admins** (available under the **Platinum Elite** subscription) will only have access to templates created within their specific company.

Once all desired data points and unique identifiers have been selected, you can save the configuration for future use by entering a **Template Name** and clicking **SAVE**.

# Data Management Solutions

Validate ■ Create ■ Convert

Select Data Points

Select the data points from each file to be included in the comparison. One or more data point pairs must be specified as the unique identifier for the record.  
When a masked SSN is used as one of multiple unique identifiers, only the last 4 digits will be considered.  
Please note when using a masked SSN, it is recommended to use multiple unique identifiers (UI) to return optimal results. UI examples include but are not limited to first name, last name, date of birth, and relationship, if applicable.

Select an applicable template below for the indicated data points. If a template is NOT available, one can be created by selecting all desired data points and unique identifier(s) and adding a template name. Once the template has been saved, it will be added to the template library for future use.

Apply a Data Points Template ▼

Base.xlsx baseline	Secondary.xlsx secondary

## Mapping – Computation

Add a computation (subtraction, addition, multiplication, division) to any numeric data point from the baseline file to any numeric data point in the secondary file. Add the computation by clicking the button under the Computation Function column for the desired data points and then selecting the function required.

Computation Function

NONE

NONE

NONE

If both files contain a numeric value, and there is a discrepancy between the two values, the system will attempt to run the selected computation function on the values. If successful, the resulting discrepancy computation value will be included on the the Discrepancy Reports.

Format

NONE

MINUS: BASELINE - SECONDARY

MINUS: SECONDARY - BASELINE

ADD

MULTIPLY

DIVIDE: BASELINE / SECONDARY

DIVIDE: SECONDARY / BASELINE

The computation function will create a new column as a result of the computation in the downloadable Discrepancy Report and will be reflected in the discrepancy counts and discrepancy report tables.

## Verify Discrepancies

**Verify Discrepancy Data** entries are identified by the system when the unique identifier from one file is matched to an entry in the opposing file and one or more of the remaining data points do not match. Verify the data discrepancies by selecting the existing value, creating new, or ignoring. A discrepancy type can also be selected from the dropdown. Once ALL have been verified click SAVE and then NEXT. Auditor comments can be added to Discrepancy Type / Note in the Auditor Notes field.

# Data Management Solutions

Validate ■ Create ■ Convert

Verifier Notes are also available. However, Auditor Notes are locked to Verifier Users and cannot be changed.

### Verify Discrepancies

Verify the discrepancies below by selecting the correct value for each discrepancy. You can save your progress at any time.

All discrepancies and missing data can be assigned to a specific user either from the Verify Discrepancy or the Verify Missing Data step.

Please use the Verifier Details dropdown to assign a user to review and verify discrepancies.

Please note an email will be sent to the verify user immediately upon saving the assignment.

Verifier Details

## Import Files

# Data Management Solutions

Validate ■ Create ■ Convert

Import baseline and secondary files, select specific worksheets (if applicable), then click SAVE. If using same file for both baseline and secondary, click USE BASELINE FILE. Rename file names using 31 characters or less, if desired.

The screenshot shows the 'Import Data' form with the following elements:

- Import Data** header.
- Select the files to be used for comparison.** instruction.
- Baseline File** section:
  - Choose File** button and file name: `Test Files for ...03.07.2024.xlsx` (highlighted with a red box).
  - Select Worksheet** dropdown menu with `baseline` selected (highlighted with a green box).
  - Baseline File Name** text input with `Base` and `.xlsx` (highlighted with a blue box).
- Secondary File** section:
  - Choose File** button and file name: `Test Files for ...03.07.2024.xlsx` (highlighted with a red box).
  - USE BASELINE FILE** button (highlighted with a purple box).
  - Select Worksheet** dropdown menu with `secondary` selected (highlighted with a green box).
  - Secondary File Name** text input with `Secondary` and `.xlsx` (highlighted with a blue box).
- BACK** and **SAVE** buttons at the bottom.

## Select Data Points & Create Import Template

Matching data points will be auto filled. Add and/or Delete data points as needed. Select a minimum of One (1) unique identifier. Click CLEAR ALL to delete all data points.

When a masked SSN is used as one of multiple unique identifiers, only the last 4 digits will be considered.

Please note when using a masked SSN, it is recommended to use multiple unique identifiers (UI) to return optimal results. UI examples include but are not limited to first name, last name, date of birth, and relationship, if applicable.

Optionally, check SHARE WITH ORGANIZATION to add the template to the Organization Level Template library. **Any template shared with an organization and created by an organization administrator, or an organization compare user, can be utilized under any company within that specific organization. Company admins which are available under our Platinum Elite subscription will only have access to the templates that are created under their specific company.**

Once all desired data points and unique identifier(s) have been selected, an import template can be created for future use by adding a template Name and clicking SAVE.

## Verify Discrepancies

**Verify Discrepancy Data** entries are identified by the system when the unique identifier from one file is matched to an entry in the opposing file and one or more of the remaining data points do not match. Verify the data discrepancies by selecting the existing value, creating new, or ignoring. A discrepancy type can also be selected from the dropdown. Once ALL have been verified click SAVE and then NEXT. Auditor comments can be added to Discrepancy Type / Note in the Auditor Notes field.

# Data Management Solutions

Validate ■ Create ■ Convert

Verifier Notes are also available. However, Auditor Notes are locked to Verifier Users and cannot be changed.

### Verify Discrepancies

Verify the discrepancies below by selecting the correct value for each discrepancy. You can save your progress at any time.

All discrepancies and missing data can be assigned to a specific user either from the Verify Discrepancy or the Verify Missing Data step.

Please use the Verifier Details dropdown to assign a user to review and verify discrepancies.

Please note an email will be sent to the verify user immediately upon saving the assignment.

## Create Organization Level Mapping

---

The Data Management Solutions application offers Organization Level mapping that can be used across multiple companies. This eliminates the need to create duplicate mappings such as coverage tier and relationship per company.

### MAPPINGS under Organization Menu

New Mappings created at the Organization Level are automatically available to all companies within the organization.

The mapping creation level as well as when and who updated the mapping will be indicated below the mapping. Mappings can only be edited/deactivated/deleted at the creation level.

Source STD 14 day	Target STD
Source STD 30 day	Target STD

## Template Library

---

The Data Management Solutions application template library contains three individual libraries:

1. Data Points templates
2. Export templates
3. Email templates

Both data points and export templates can be created and re-used during a compare. These two templates are created at the company level but can be shared with the organization. To access the library, click on TEMPLATES under the company menu and then select the type of template.

**PLEASE NOTE:** Any data point and export template shared with an organization and created by an organization administrator, or an organization compare user can be utilized under any company within that specific organization. Company admins which are available under our Platinum Elite subscription will only have access to the templates that are created under their specific company.

The data points and export templates are not editable other than the name. However, they can be deleted. Please be aware that a deleted template cannot be recovered, and the deletion is permanent. If deleted in error, the template will need to be recreated during the compare.

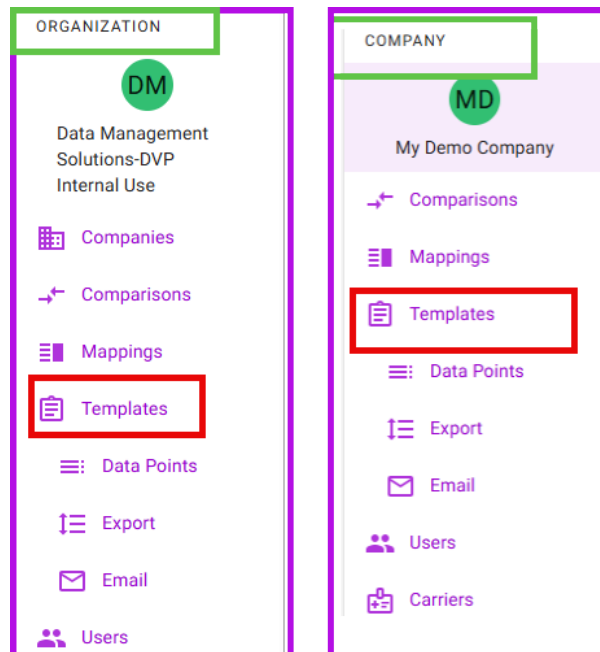

The email template library contains the default system generated emails for both the auditor and the verifier on both the organization and company levels. **Please note that Email customization is only available on the Platinum Elite and Subscription Based Audits plans.**

If customization is present the priority is

1. Company-Level Priority: If email templates are customized at both the organization and company levels, the company-level template will take precedence.

2. Fallback to Organization-Level: If no company customization is present, the application will use the organization-level customization.
3. Default System Emails: If no customization is made at either level, the application will default to the system-generated email.

A shared data point or export template will also contain the user who created/last updated the template as well as which company the template originated from.

## Adding and Removing Companies

---

Companies can be added or deactivated in the application as needed by the subscriber. A company export file for your specific organization is also available and will include the following fields:

- Company name
- Active status
- Updated at timestamp
- Termination date and reason
- Activation date
- First demo date
- Any associated notes

Please note that only Organization Admins have the ability to deactivate a company.

### Import Companies

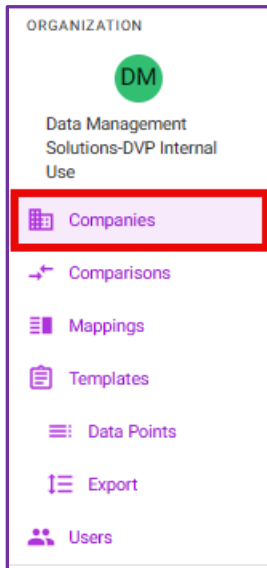

The Data Management Solutions application provides the option to import companies into an organization as well as adding them manually. Using the provided import template, all companies can now be easily added to eliminate manual entry.

Companies can be imported into an organization by selecting Companies in the Organization menu.

# Data Management Solutions

Validate ■ Create ■ Convert

Using the provided import template, complete the following fields:

- Company name (Required)
- Notes (Optional)
- First demo date (Optional)
- Activation date (Optional - effective date of company in the application)
- Primary Organization Contact Username (Optional)
- Secondary Organization Contact Username (Optional)
- Organization Benefit Admin System (Optional)

*Note: The Organization Benefit Admin System must already exist under the organization for the import to succeed.*

Including any additional columns will cause the import to fail.

**Carrier information tracking, however, is only available through the Platinum Elite or Subscription Based Audits subscription plans.**

## Import Carriers

The Import Carriers button can be found on the Organization level under the Companies page.

Company Name	Org Contact 1	Org Contact 2	Active	Updated At
ML: DEMO COMPANY			Yes	10/11/2024
MY DEMO COMPANY			No	12/2/2024
RON'S BARN			Yes	6/10/2025
SMITH AND JONES GUN SHOP			Yes	1/8/2025
TEST			No	5/30/2024

Using the provided import template, complete all required fields:

- Company Name: The company name must match the company name that is currently in the application. If the name does not match, the application will not be able to add the carrier information. (Required)
- Carrier Name: The available carriers are provided on a separate reference tab (Carriers(reference)) in the import template. If a desired carrier is not listed, a request can be made to add through our enhancement request form: [Enhancement Request Form - DMS Data Validate \(dms-datavalidate.com\)](https://dms-datavalidate.com) (Required)
- Group Number: This is a free-from field for the Group Number assigned to the Company by the carrier. (Optional).
- Renewal Month (Required)
- Renewal Kickoff Days In Advance (Optional)
- Carrier Invoice Day Of Month (Optional)
- Eligibility Management Type (Optional- Eligibility Reference tab available in import template)
- Carrier Inception Date (Optional)
- Carrier End Date (Optional)
- Disable Renewals (Optional)
- Carrier Contact Name (Optional)
- Carrier Contact Email (Optional)
- Carrier Contact Phone Number (Optional)
- Notes (Optional)

- Secondary Carrier Contact Name (Optional)
- Secondary Carrier Contact Email (Optional)
- Secondary Carrier Contact Phone Number (Optional)
- Audit Service (Optional)
- Organization Eligibility Contact Username (Optional)
- Organization Audit Contact Username (Optional)

The completed template can then be selected using the Choose File button and then IMPORT.

### Import Company Carriers

[Data Management Solutions-DVP Internal Use](#) / [Companies](#) / Import Company Carriers

Import an Excel file to bulk import multiple carriers for any of your organization's companies in a single step.

#### Import Companies

The file should be an Excel file matching the downloadable import template structure. Any additional columns, invalid carriers, invalid companies, or cells not formatted as Text, will cause the import to fail.

Choose File

## Carrier Plan Tracking

---

The Data Management Solutions application provides the option to manually add carrier plan information for a company and a specific carrier as well as an import option. The following information can be added to the application:

- Carrier (Required and auto defaults to selected carrier)
- Plan Name (Required)
- Benefit Type (Required – select from available dropdown options)
- Group Number (Optional – If Group Number was added at Carrier Level, it will default to the Plan level. However, this field can be overwritten at the plan level)
- Eligibility Management Type (Optional – If Type was added at Carrier Level, it will default to the Plan level. However, this field can be overwritten at the plan level)
- Disable Renewals (Optional Checkbox)
- Notes (Optional)

**Carrier plan information tracking, however, is only available through the Platinum Elite or Subscription Based Audits subscription plans.**

### Import Plan

Carrier specific plans can be imported into the application. Using the provided carrier import template you can import the following fields:

- Company Name (Required)
- Carrier Name (Required – Carrier reference tab included in template)
- Plan Name (Required)
- Benefit Type (Required- Benefit Types reference tab included in template)
- Group Number (Optional)
- Eligibility Management Type (Optional)
- Disable Renewals (Optional)
- Notes (Optional)

# Data Management Solutions

Validate ■ Create ■ Convert

The Import Carriers button can be found on the Organization level under the Companies page.

Using the provided carrier import template, complete all required fields:

- Company Name (Required)
- Carrier Name (Required – Carrier reference tab included in template)
- Plan Name (Required)
- Benefit Type (Required- Benefit Types reference tab included in template)
- Group Number (Optional)
- Eligibility Management Type (Optional)
- Disable Renewals (Optional)
- Notes (Optional)

The completed template can then be selected using the Choose File button and then IMPORT.

**Carriers must be added to each company before importing plans. You may also import multiple plans across multiple carriers and companies in a single import**

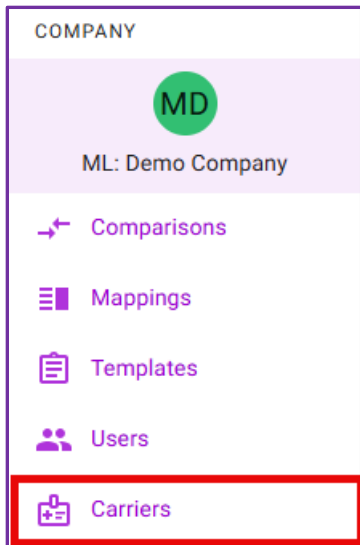

# Data Management Solutions

Validate ■ Create ■ Convert

## Manually Add Plan

Plan information can be manually added on the Company level by selecting Carriers from the left menu.

Select the carrier that you would like to add a plan to. Please note that the carrier has to be added prior to adding a plan.

The table below shows the carriers that have been added for your company. [ADD A NEW CARRIER](#)

Carrier	Group Number	Renewal Month	Eligibility Management Type	Active	Notes
CVS CAREMARK	PIU-9874	August		Yes	
CIGNA	C123456	February		Yes	Demo
UNITEDHEALTHCARE	UH98745	January		Yes	
ACCESS HEALTH	789541	January		Yes	No notes

Click ADD A NEW PLAN. The location of ADD A NEW PLAN will vary if there are existing plans under the carrier.

## Email Customization

---

The Data Management Solutions application has customized emails for verifiers and auditors at both the organization and company levels. **Please note that Email customization is only available on the Platinum Elite and Subscription Based Audits plans.**

### Key Features:

1. Customizable Templates:
  - Email templates can be found in the template library at both the organization and company levels.
  - Default language can be fully customized to suit user preferences.
2. Additional Tokens:
  - Include dynamic data like carrier name, discrepancy counts, and missing counts in your emails for more personalized and informative communication.
3. Priority Rules:
  - Company-Level Priority: If email templates are customized at both the organization and company levels, the company-level template will take precedence.
  - Fallback to Organization-Level: If no company customization is present, the application will use the organization-level customization.
  - Default System Emails: If no customization is made at either level, the application will default to the system-generated email.

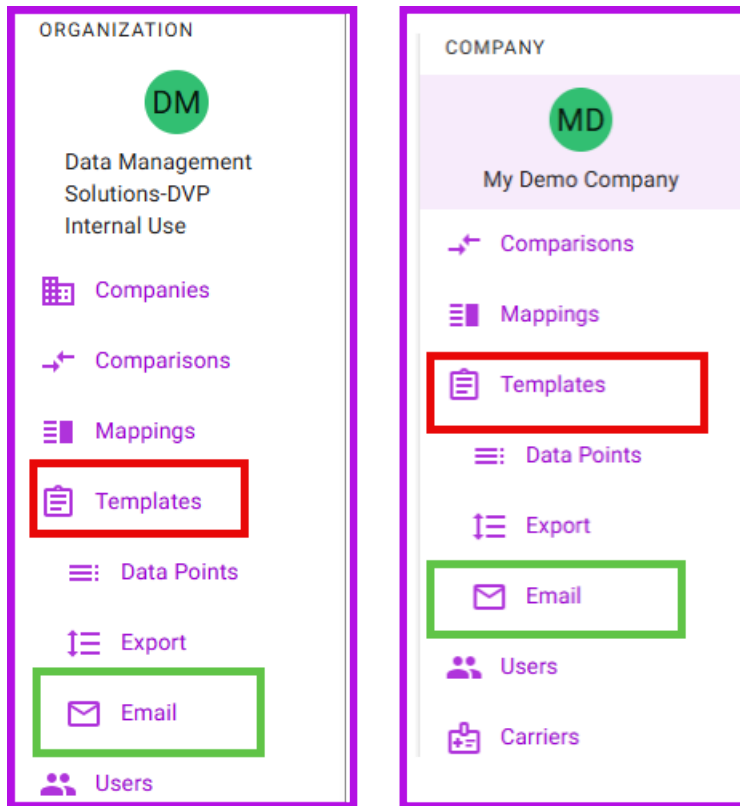

### Verifier Email

To customize the verifier email, click on the Template Library on either the Organization or Company Level and then EMAIL

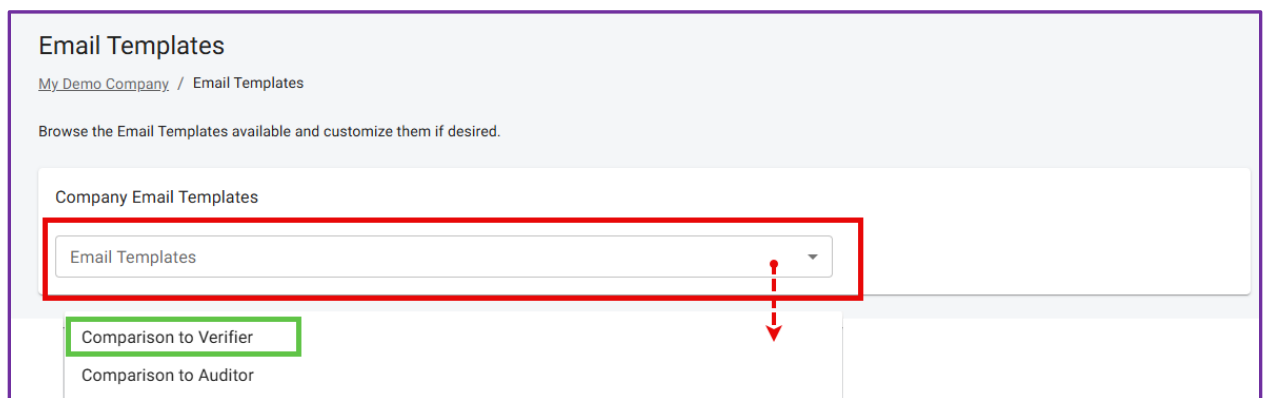

# Data Management Solutions

## Agency Task Module: Renewal Wizard

---

The Renewal Wizard in the Data Management Solutions application is a shared workspace where a General Agent (GA) can start a group's renewal and collaborate with designated Organization contact(s) to complete the renewal information checklist—covering items such as Open Enrollment dates and plan details.

### Who Does What?

**GA (General Agent)** → Starts the renewal, reviews/approves, enters testing details, closes task.

**Organization Contacts** → Provides client information, completes plans checklist, tests, and approves the renewal to Go Live.

### How It Works

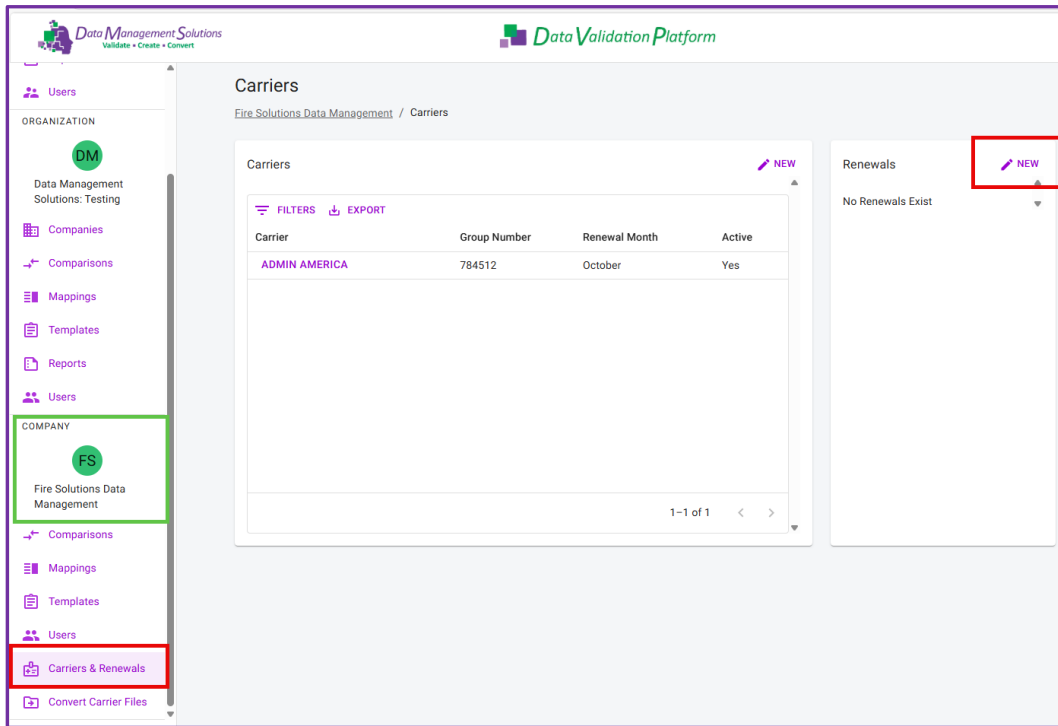

#### Step 1: GA Initiates a Renewal

- GA logs into the **Data Management Solutions application**.
- Navigate to the company with the upcoming renewal.
- Click **Carriers and Renewals** → **New** under the Renewal section.

# Data Management Solutions

Validate ■ Create ■ Convert

- Select the **Renewal Month** and **Renewal Beginning Plan Year**, then click **Save**.

- An **automated email** notifies the designated Primary and Secondary Organization that a renewal has been created. The designated GA Renewal Contact will also receive this email.

# Data Management Solutions

Validate • Create • Convert

N notifications@dms-datavalidate.com  
To:

Hello

The 2025, October renewal for your client, , is quickly approaching. To ensure their employee benefits enrollment portal is ready for re-enrollment, a few key steps require your attention.

Please [click here](#) to log in and view all details of this renewal.

Within the portal, you can upload all relevant plan materials, including (but not limited to) plan documents, rate sheets, and notes on any plan changes.

The client information and plans checklist should be completed at least 10 business days before your desired site open date. Updating plans for renewal, which also includes our internal QA process, takes approximately 5-7 business days. After our internal QA is complete, this allows an additional 1-2 business days for your review and feedback before the site is made available to employees.

We look forward to partnering with you to ensure a smooth and timely renewal for Black Jack Company. If this request should be directed to another contact, please provide their information in the comments. We'll be happy to reassign the task accordingly.

Thank you,  
on behalf of Mary Lanier, Broker Builder Solutions | Data Management Solutions

This email was sent from a notification-only address that cannot accept incoming email. Please do not reply to this message.

*Note: Organization contacts and GA Renewal Contact can be found on the Company Detail page.*

## Step 2: Organization Completes Client Information

- The Organization will receive a Renewal Kickoff email outlining the next required actions. This email includes a link that, once logged into the application, allows the Organization user to easily access the renewal and begin **Step 1: Client Information**.
- If the Organization wants to take the lead instead of the GA, they can choose Broker Managed and assign an organization contact from the dropdown.
- The user will then complete the Required fields:
  - **Enrollment Start Date** – date the open enrollment is open to the employees
  - **Open Enrollment End Date** - date the open enrollment closes for the employee
  - **Administration End Date** – date the open enrollment closes for admin users such as the HR team or Benefits Administrator
  - **Enrollment Type (Active/Passive)**
- Optional (recommended) fields:
  - COBRA Enrollment Type (Active/Passive)
  - Passive Enrollment Button Enabled (Before, After, Both)
  - Send Deductions Date (if payroll integration is present)
  - Custom Enrollment Welcome & Email Language
  - Comments
- Click **Submit Client Information** → GA is notified for review.

## Carrier Invoice Conversion

---

The Data Management Solutions application has functionality to convert carrier invoices that are not application-friendly and require significant manual adjustments before they can be used for auditing. This conversion functionality is available to all compare users but can only be converted on the company level.

What This Functionality Does:

1. Removes adjustments and blank rows to streamline data processing.
2. Expands member names into separate columns for First Name, Last Name, and Middle Initial (MI).
3. Totals costs where benefits have separate charges on separate rows for spouse and child, such as Critical Illness and Voluntary Life.
4. Adds additional total columns for benefits that are separated in one file but combined in another. This applies to Group Life and AD&D, as well as Voluntary Life and AD&D.

The converted file is then ready for audit use, significantly reducing manual effort and improving efficiency.

To convert a carrier invoice:

1. Navigate to a company if organization user.
2. Under the company, select Convert Carrier Files in the left-hand menu.

Discrepancies Missing Data

## **Original Baseline File – discrepancies only / Original Secondary File – discrepancies only**

These are downloadable reports located on Step 5 – Compare. These reports display all data points within a row from either the baseline or secondary file, regardless of where the discrepancy occurs.

A dedicated discrepancy column is included that highlights the specific data point where the mismatch is found. This additional report is designed for scenarios like imports, and it ensures all relevant data points—alongside the discrepancy—are readily available for further processing.

The new Discrepancy Report can now be accessed in Step 5 Compare within the updated Download Reports dropdown. They are named: Original Baseline File – discrepancies only and Original Secondary File – discrepancies only.

## **Original Baseline File / Original Secondary File**

This is a downloadable report located on Step 5 - Compare that contains all data from the original import files prior to mapping and is available for either the baseline or the secondary.

## **All Records Including Verified**

This is a downloadable report located in Step 8 - Complete that contains all records from either the baseline or secondary file including the verified records (discrepancies and missing). The *All Records Including Verified* report also includes 5 additional columns added to the original files:

- DMS\_Verified\_By

# Data Management Solutions

Validate ■ Create ■ Convert

- DMS\_Auditor\_Notes
- DMS\_Verifier\_Notes
- DMS\_Discrepancy\_Type
- DMS\_Ignored\_Discrepancies

Select file to export  
Base

Customize Export - 'Base'

Reorder and/or rename the columns to be exported below. Custom formatting for data values may also be applied in certain cases. The merged indicator will only show for data points being merged into the selected export file. Customizations will be saved once the file is exported, or by clicking Save Customizations below.

Select an applicable template below for the export customizations. If a template is NOT available, one can be created by adding all desired customizations (renaming, reordering, formatting) and adding a template name. Once the template has been saved, it will be added to the template library for future use.

No applicable Export Templates

Ignored Records will **not** show in the *Verified Records only* report.

## Organization Reports

There are two reports that live on the Organization level: Carriers & Plan and Renewals. This new section provides visibility into carriers, plans, and company renewals—all in one central location. Reports can be filtered by various columns and exported to CSV or printed, eliminating the need to navigate to each company or renewal individually.

## Carriers & Plans

## Key Words

---

The application has key words that it utilizes to determine a match between columns. These key words are:

### SSN:

- ssn
- social security number
- socialsecuritynumber
- ss#
- social security #
- ee id
- social security no
- memberid

### First Name:

- first name
- firstname
- first\_name
- fname

### Last Name:

- last name
- lastname

### Address:

- Address
- Address 1
- Address 2
- Address
- ADDRESS LINE 1
- ADDRESS LINE 2
- Street Address

### Date of Hire:

- doh
- date of hire
- hire date

### Date of Birth:

- dob
- date of birth
- birth date

### Termination Date

- dot
- term date
- termination date

### Zip

- Zip
- Zip code

## Knowledge Base

---

The Data Management Solutions application provides a knowledge base for frequently asked questions.

[DV Platform Knowledge Base - DMS Data Validate \(dms-datavalidate.com\)](https://dms-datavalidate.com)

## Benefit Systems

---

The Data Management Solutions application provides instructional videos for various carrier files for enrollments and invoices.
